

Payment Voucher Development – Business Central

Develop a simple Payment Voucher module in Microsoft Dynamics 365 Business Central with Header, Lines, Approval Workflow, and Reporting functionality.

1. Payment Voucher Header

Field	Description
Voucher No.	Auto-generated payment voucher number
Document Date	Date voucher is created
Payee	Vendor, Employee, or G/L Account
Payment Method	Cash, Bank Transfer, or Cheque
Total Amount	Total amount of voucher
Status	Open, Pending Approval, Approved, Posted

2. Payment Voucher Lines

- Account Type and Account No.
- Description
- Amount
- Dimensions
- Applies-to Document No.

3. Approval Workflow

- Send approval request
- Multi-level approval support
- Reject and reopen voucher
- Posting allowed only after approval

4. Report

Generate a Payment Voucher Report showing voucher details, payee information, amounts, approval status, and posting details.

5. Deliverables

- Payment Voucher Header Page
- Payment Voucher Lines Page
- Approval Workflow

- Posting Logic
- Payment Voucher Report
